

## Industrial Solar's project chosen to be presented at the "100% RHC Event" in Helsinki

**Our system for solar thermal steam generation and solar thermal cooling installed at our customer JTI in Amman/Jordan has been selected to be presented at the "100% Renewable Heating and Cooling for a Sustainable Future" event on 28 October 2019 in Helsinki, Finland.**

Renewable energy technologies for heating and cooling are safe, clean, efficient and increasingly cost-competitive. The [European Technology and Innovation Platform on Renewable Heating and Cooling](#), officially endorsed by the European Commission since October 2008, aims at playing a decisive role in maximising synergies and strengthening efforts towards research, development and technological innovation which will consolidate Europe's leading position in the sector.

The European Technology & Innovation Platform on Renewable Heating and Cooling (RHC ETIP) organises the event [100% RHC for a Sustainable Future](#), the opportunity for RHC experts to learn, network and present their RHC innovative projects.

Industrial Solar's system for solar thermal steam generation and solar thermal cooling at [JTI](#) in Amman, Jordan has been selected to be presented at the RHC event on 28 October 2019 in Helsinki.
